

This specially formulated denatured ethanol based antifreeze is manufactured exclusively for GeoSource Distributors. Closed loop geothermal systems require antifreeze to protect from freezing in cold climates. GeoBlend is the best choice...

- **Based on renewable grain alcohol**
- **Specially formulated corrosion inhibitor**
- **20% greater heat transfer than glycol**
- **8% lower viscosity than glycol**
- **Low toxicity compared to other antifreeze products**
- **Environmentally safe with pleasant blue color**
- **Biodegrades easily**
- **Lowest NPFA health warning available**
- **Mixes easily with water**
- **Available in 55 gallon drums or 5 gallon cans**
- **Available in pure concentrated form or 80/20 premix**
